

Migrating data and upgrading Teamwork Cloud

Depending on whether you need your current Teamwork Cloud database or not, there are two different approaches you can use:

- If you do not need your current Teamwork Cloud database, uninstall the old Teamwork Cloud version and install a new one as described in [Upgrading Teamwork Cloud](#).
- If you need the current Teamwork Cloud database, [upgrade Teamwork Cloud](#) and [migrate the database](#). Note that there are several [migration strategies](#) you can use. After migrating the database, you must [update your projects](#) as well.

The following sections provide instructions on how to upgrade Teamwork Cloud and migrate data.
