

Modifying NCV-5 table

Please refer to Section [Managing tables](#), if you are looking for the following table handling features:

- Delete the selected row.
- Delete the selected row from the table.
- Move the selected row up.
- Move the selected row down.
- Export a table to a plain text file format (.csv) or a Hypertext Markup Language format (.html).
- Generate a report.

To add/ remove columns to a NCV-5 table

1. In the table toolbar, click the **Add/ Remove Columns** button. The element Selection dialog will open.
2. Select capabilities to add or remove from a table. For the detailed information about the element Selection dialog see Section [Selecting elements](#).
3. Click **OK** when you are finished.

- Capabilities will be removed only from the table. They will not be removed from the model.
- An Exhibits relationship between the context element and a removed Capability will be removed from the model.
- An Exhibits relationship between the context element and an added Capability will be added in the model.

To add/ remove resources to a NCV-5 table

1. Click the cell you want to edit.
2. The **+** and **-** buttons will appear at the right of the cell as it is shown in the following figure.
3. Do one of the following:
 - Click the **+** button to add a resource. The **Deployment Milestones** creation wizard will open.
 - Select a resource you want to remove and click the **-** button.

The Resource will be removed from the table, but not from the model.
