

Migration from Alfresco server

Once you migrate from Cameo Collaborator for Alfresco to Cameo Collaborator for Teamwork Cloud, you should migrate your documents too. Migrating documents is beneficial, because when you work on projects for a long time, published documents contain a lot of comments which you do not want to lose. In addition migrating document URLs, allows you to access the documents in Cameo Collaborator for Teamwork Cloud using Cameo Collaborator for Alfresco document links.

To migrate documents from the Alfresco server

1. [Make sure that the projects you want to migrate are updated in the Alfresco server.](#)
2. [Publish the same projects to Cameo Collaborator for Teamwork Cloud using the same document names and the same templates that were used when publishing the projects to Alfresco.](#)
3. [Migrate comments from the documents in Cameo Collaborator for Alfresco to the corresponding documents in Cameo Collaborator for Teamwork Cloud.](#)
4. [Migrate document URLs from Cameo Collaborator for Alfresco to Cameo Collaborator for Teamwork Cloud.](#)
