## **Symbol Properties dialog**

In the **Symbol Properties** dialog, you may define various symbol (or group of symbols) properties, such as fill color, font type, whether to wrap text. The **Sy mbol Properties** dialog is a non-modal window - you can edit the symbol properties and see the changes on the diagram instantly. In addition, while the dialog is active you can still work with diagrams or other dialogs.

Symbol Properties of Class Building					
Set individual element display options and/or apply a specific style Specify the shape or path symbol properties. Also apply a style for the selected element(s). Choose the Expert or All options from the Properties drop-down list to see more properties.					
🎫 2i 📼	€÷ ₽÷	🖺 Standard 🗸			
Class					
Fill Color		B [255, 204, 153]			
Pen Color		B [153, 121, 92]			
Text Color	RGE	B [0, 0, 0]			
Font	Arial 1	.1			
Fill Color Change the fill color of the shape.

## To open the Symbol Properties dialog

- 1. On the diagram, select a symbol or a group of symbols.
- 2. Do one of the following:
  - From the main menu, select Edit > Symbol > Symbol Properties.
  - From the selected elements' shortcut menu, choose Symbol Properties.
  - Press Alt+Enter.

In the following table, you will find the described common functions that Symbol Properties dialog provides.

lcon	Title	Туре	Description
rī -	Apply Style	Button	Click to open the menu with the available styles.
ß	Show All Properties	Button	Click to display all the properties for the selected symbol types. Note that the <i>Show All Properties</i> button is displayed only when at least two shapes of different element types are selected, for example, a class and a package.
Make Default	Make Default	Button	Click to change the default symbol properties to the properties that are specified in this dialog.        Warning        highly recommended to use the Make Default button only if you fully understand the symbol styles and how your symbol styles can be affected.        Warning        Make Default button is available in the Teamwork Cloud project only if you have tocked the symbol styles for edit.

Our project is of the earlier version you need to set up a new symbol properties manually.
