

Macro Engine Documentation

The following pages present detailed instructions on working with macros using Macro Engine. Macro Engine enables you to easily create, add, and edit your macros to customize them to your needs.

[Introducing Macro Engine](#)

[Selecting a default macro language](#)

[Creating a Macro](#)

[Adding a Macro and editing Macro information](#)

[Deleting and executing Macros](#)

[Macro keyboard shortcuts](#)

[Opaque objects](#)

[Recording Macros](#)

[Supported scripting languages](#)
