## Getting merge summary information and changes legend

The **Summary/Legend** panel is located at the bottom left of the **Merge** window. The panel helps to understand the marking and highlighting of elements in both the **Merged Result** tree/list and the **Specification** panel.

On the **Summary/Legend** panel, for 3-way merge, you can see how many differences have been detected between the ancestor and the source, as well as between the ancestor and the target.

Summary/Legend	×	
Source differences from ancestor (14)	Target differences from ancestor (1)	
Added (1)	Added (0)	
Deleted (2)	Deleted (0)	
Modified (11)	Modified (1)	
Contains inner changes		
<ul> <li>- accepted change</li> </ul>	<ul> <li>conflict resolved automatically</li> <li>by choosing target</li> </ul>	
× - rejected change	= - equivalent change	

For 2-way merge, you can see how many differences have been detected between two versions, and what kind of changes were detected.

Summary/Legend	د
Differences (10)	Contains inner changes
Added (1)	
Deleted (0)	<ul> <li>- accepted change</li> </ul>
Modified (9)	× - rejected change
