

Features and layout

The Web Publisher 2.0 report consists of four panels:

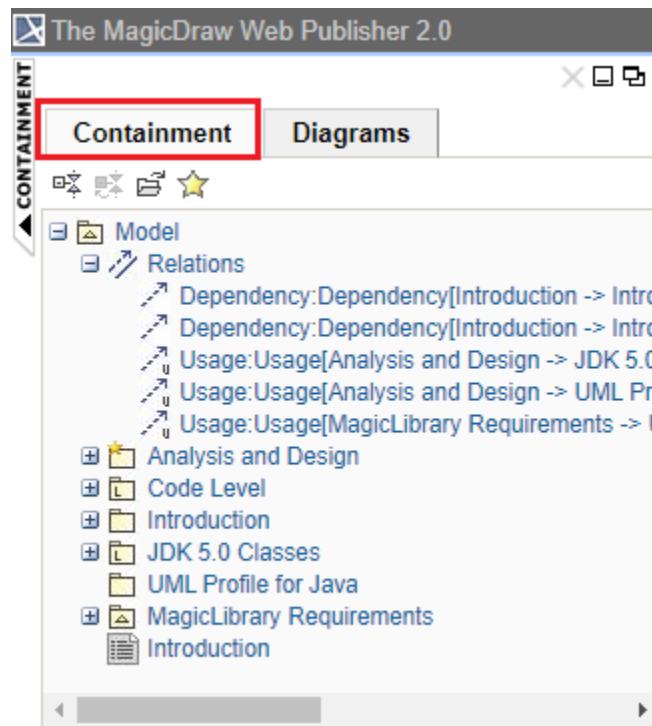

1. Containment panel - This panel contains two tabs: **Containment** and **Diagrams**. The **Containment** tab shows data of a project in a tree structure, and the **Diagrams** tab shows all diagrams in a project. In each tab, there are four toolbar buttons as follows.
 - **Collapse All**: Collapses all expanded elements in the active tab.
 - **Collapse Selected Recursively**: Collapses all child elements of the selected element in the active tree recursively.
 - **Open In New Tab**: Opens a new tab of the specific element. When you select an element in the tab and click this button, the selected element and its children will be listed as a new tree recursively in a new tab.
 - **Favorite**: Navigates to the favorite elements listed in this menu. When you select a favorite element, you will be navigated to that favorite element in the active tab.

 **Note**
If there is no favorite element, the **Favorite** button will be hidden.

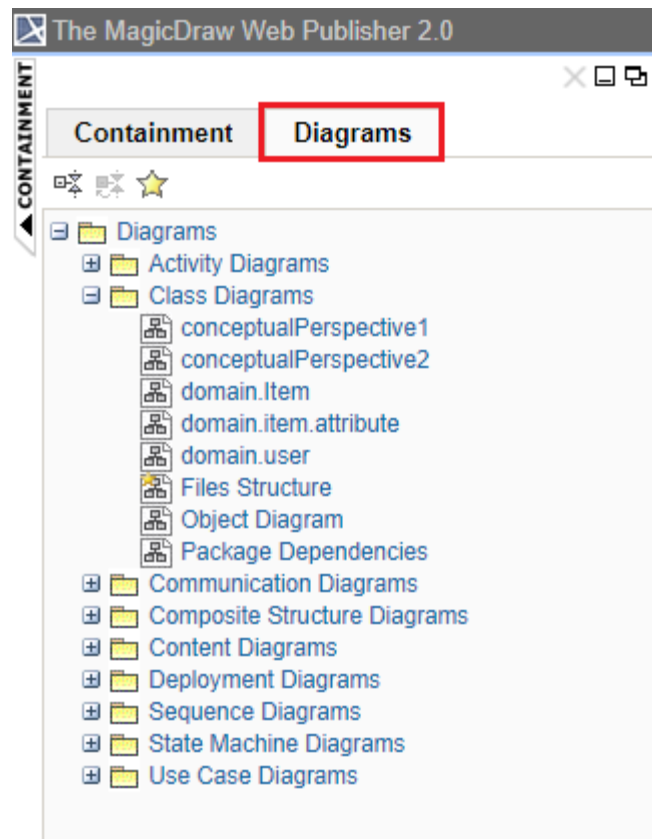

2. Content panel - This panel shows an element's content.
3. Search panel - This panel contains a **Quick Search** box. You can search for an element in a project by either typing in a specific keyword or by using a regular expression as a keyword.

Web Publisher 2.0.

The Containment tab.

The Diagrams tab.

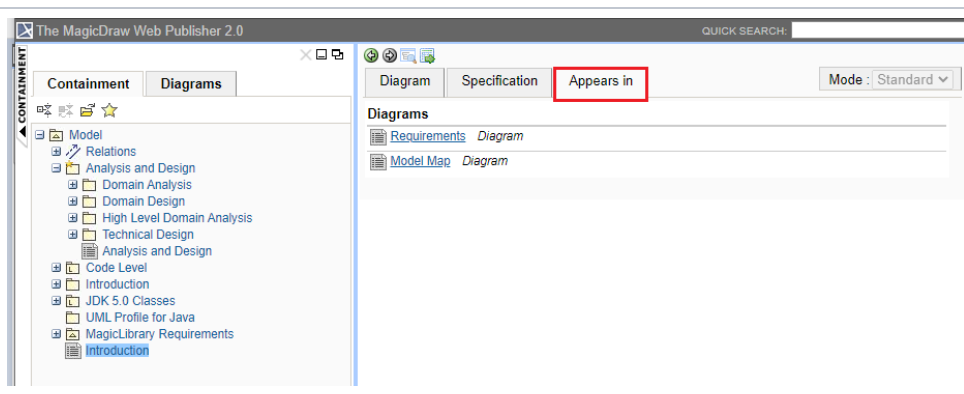

The Content panel of Web Publisher contains three tabs: Diagram, Specification, and Appears in. You can click any element in the Containment tree of Web Publisher to open three tabs.

- The **Diagram** tab shows diagram images.

- The **Specification** tab shows elements specification.
- The **Appears in** tab shows you all diagrams in which a particular element is present. You need to select the element in the Containment tree to open the **Appears in** tab.
