

Validation in Dependency Matrix

The [validation](#) results for relationships are visualized in matrices. Matrix cells are highlighted whenever relationships violate validation rules.

Legend		<input type="checkbox"/>						
Satisfy								
		<input type="checkbox"/> SR-1 VCC System Requirements						
		<input type="checkbox"/> SR-1.1 Automatic Temperature						
		<input type="checkbox"/> SR-1.2 Manual Temperature Co						
		<input type="checkbox"/> SR-1.3 Temperature Display						
		<input type="checkbox"/> SR-1.5 Sound Level						
		<input type="checkbox"/> SR-1.6 Total Mass						
		<input type="checkbox"/> SR-1.7 Engine Use						
<input type="checkbox"/> VCCS Configuration					1	2		
<input type="checkbox"/> /soundLevel : dBA								
<input type="checkbox"/> /totalMass : mass[kilogram]								
<input type="checkbox"/> mass : mass[kilogram]
