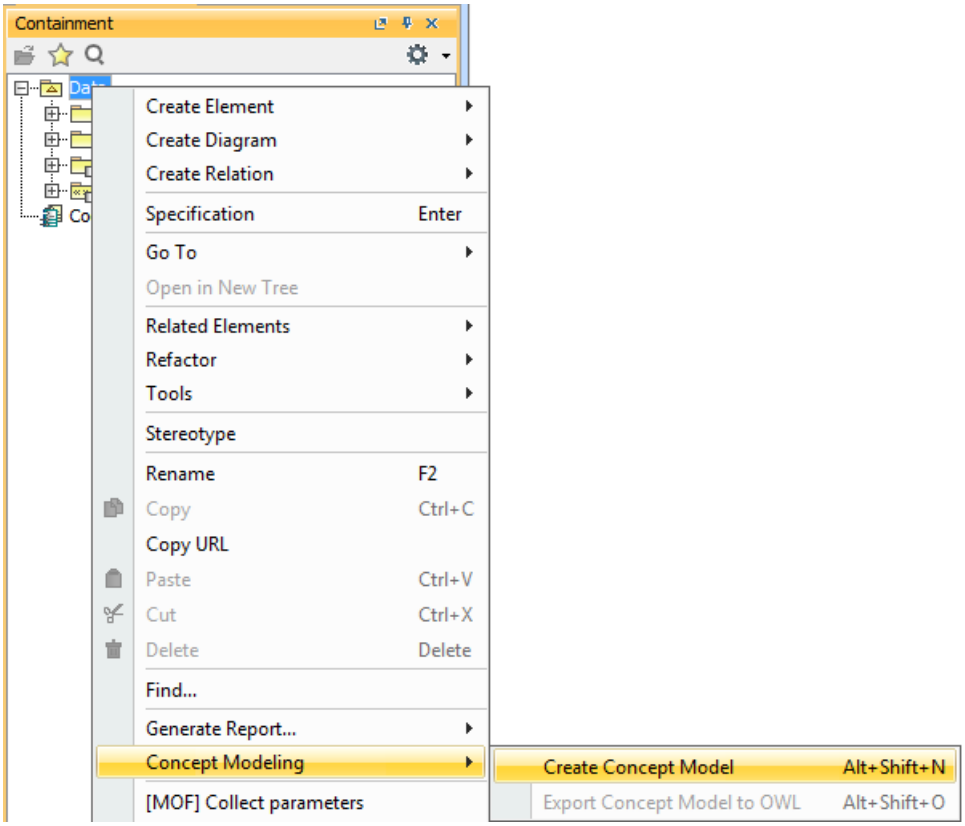
# Creating a concept model

To create a concept model

---

1. Right-click a package in the Containment tree.
2. Select **Concept Modeling**.
3. Select **Create Concept Model**.



Using the Create Concept Model shortcut menu to create a concept model.

> **Note**
> If an Unnamed package already exists in the Containment tree, a number in the package name will be added or incremented.

4. The result should look as shown below.
