Satisfy

A 'Satisfy' relationship is a dependency between a requirement and a model element that fulfills that requirement. As with other dependencies, the arrow direction points from the satisfying (client) model element to the (supplier) requirement that is satisfied.

«block» VCCSystem Configuration		«requirement»
constraints	1	Total Mass
values		Id = "SR-1.6" Text = "Total mass must not
<pre>«moe» totalMass : mass[kilogram]{redefines Total Mass,unit = kilogram]; «moe» soundLevel : dBA{redefines Sound Level}</pre>		exceed 20 kg."
mass : mass[kilogram]{unit = kilogram}
