

Creating nested parts by pasting items from the list

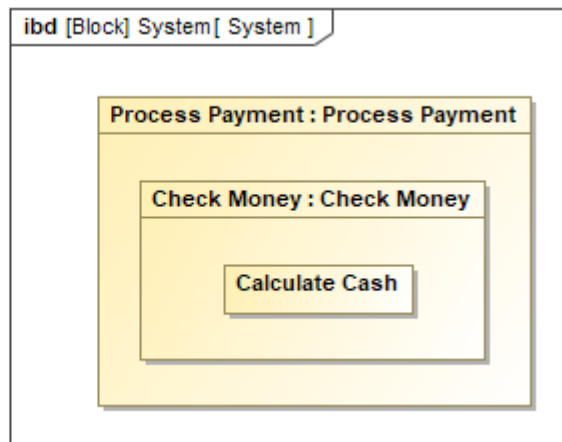

When you have an indented list of the items you want to create as parts in the diagram, you can copy the list and paste it in the [SysML Internal Block Diagram](#) diagram pane.

You can copy the list from a text editor (Word, Notepad, etc.), web page, PDF file, etc.

To create parts by pasting items from the list

1. Copy the list.
2. Go to the diagram and press Ctrl+V.
3. In the opened menu, select **Element**.
4. Select Part Property (or other Property) element type.
5. In the question dialog click **Yes** if you need to create nested parts.

1. Process Payment
1.1. Check Money
1.1.1. Calculate Cash

The nested parts are created according to the copied list
