Creating SubChoreography

A SubChoreography can be displayed with different symbol properties:

- An Expanded SubChoreography can contain inner shapes.
- A Collapsed SubChoreography cannot display inner shapes. A plus sign (+) marker is displayed for a collapsed subprocess.

To create SubChoreography

• On the Choreography diagram pallet, click SubChoreography and select a needed SubChoreography.

To expand a SubChoreography, do one of the following

- Right-click a SubChoreography and on the shortcut menu select **Suppress Content**.
- Right-click a SubChoreography and select Symbol(s) Properties. The Symbol Properties dialog opens. Select or clear the Suppress Content and click OK.

To collapse a SubChoreography, do one of the following

- · Right-click a SubChoreography and on the shortcut menu clear the Suppress Content.
- Right-click a SubChoreography and select Symbol(s) Properties. The Symbol Properties dialog opens. Clear the Suppress Content and click OK
