Sharing document links

On this page

• Providing an easy-to-remember link

After a document is published to Cameo Collaborator for Teamwork Cloud, you can share it with reviewers by providing a link to a Cameo Collaborator document.

Sharing a published model is the second step in the workflow for reviewing models and providing feedback.

To get a link to a Cameo Collaborator for Teamwork Cloud document

After you complete the above steps, the link to a document is copied to your clipboard and you can share it with reviewers.

Providing an easy-to-remember link

When you want to share a Cameo Collaborator document and provide reviewers with an easy-to-remember link, you can rewrite the link to the document by using a document name in it.

To get an easy-to-remember link to a published model

- 1. Get a link to a published model, as described above. The link should look like this <domain>:<port>/webapp/collaborator/document/<document/</p> ID>.
- 2. After pasting the link to share it with reviewers, replace the document ID with the name of the published document and add .CC at the end of the link.

Sou want to rewrite a link to the published model named Climate control system, the rewritten link should look like this <domain>:<port>/webapp

/collaborator/document/Climate%20control%20system.CC.

Bre are limitations for characters that can be used in a document name if you want to include it in the document link:

• You cannot use slashes (/) and back slashes (\). They are treated as resource separators in a document link. Related pages

- You must encode the following characters in the document name (i.e., replace each character with "%" followed by two hexadecimal digits) befo
