2021x Refresh2 Version News

Alf Plugin

Released on: December 3, 2021

Alf Plugin Version 2021x Refresh2 has fixed a number of bugs.

Key Issues Fixed

The following key issues have been fixed with Alf Plugin 2021x Refresh2:

- A Java ClassCastException is no longer thrown when a void value is passed to certain Alf library functions.
- FunctionBehaviors with Alf bodies are now properly included during a project build.
- Dependencies on context properties, operations, or signals referenced without using the *this* syntax have been properly recorded.

> You can check the list of publicly available issues or your own reported issues fixed in Alf Plugin 2021x Refresh2.
