

# System Requirements

## Modeling Tools\*

Resource	Recommended
<b>CPU</b>	Intel Core™ i5 or higher
<b>RAM</b>	16GB
<b>Disk space</b>	1GB or more depending on used plugins
<b>Display resolution**</b>	Full HD (1920x1080) or higher
<b>Operating Systems</b>	Any Java SE 8-compatible operating system (Windows, Windows Server, Linux (RedHat/CentOS 7), Mac OS X).
<b>Java Virtual Machine (JVM) version</b>	<a href="#">Java version support</a>

Earlier versions

Windows XP and earlier versions are not supported.

Mac OS 10.6 Snow Leopard and earlier versions are not supported.

## FLEXnet License Server

For system requirements, refer to the [License Administration Guide](#) section 8 – “Selecting a License Server Machine” and subsection of section 9 – “System Requirements for Imadmin”.

---

\* MagicDraw, Cameo Systems Modeler, Cameo Enterprise Architecture

\*\* 800x600, 1280x1024 display resolutions are compatible with a laptop or a projector.

## Teamwork Server

Resource	Minimum	Recommended
<b>CPU</b>	Pentium™ 3, 800 MHz	Pentium™ 4, 1.4 GHz or higher
<b>RAM</b>	512 MB	2 GB or more
<b>Disk space***</b>	25 GB***	1 TB or more***
<b>Operating Systems</b>	Any Java SE 8-compatible operating system (Windows, Windows Server 2019, Linux (RedHat/CentOS 7), Mac OS X).	
<b>Java Virtual Machine (JVM) version</b>	<a href="#">Java version support</a>	

**For Unix platforms, XWindow server is required for starting Teamwork Server with GUI and Teamwork Server Console.**

---

\*\*\* Use the [formula](#) to estimate the storage required for the Teamwork Server disk space.
