

# Activating a license at nomagic.com

To activate the license at [nomagic.com](https://nomagic.com)

1. On the machine that has connection to the Internet, log in at [nomagic.com](https://nomagic.com) as license owner.
2. At the right side of the webpage, under **Members**, click **License Activation Management**.
3. In the **License Activation Management** page, click the **Create New License Activation Record** button.

**LICENSE ACTIVATION MANAGEMENT (#524251)**

The **License Activation Management** screen is dedicated for licenses activation, deactivation, license key files request, activation records review, and other license management activities.

In order to create activation record, click the **Create New License Activation Record** button and then enter user details, Host ID of the machine, and select products licenses, which will be activated for this machine.

**Activation and License Activation Management screen** [usage instructions](#).

Installations status filter: Activated ☒ Enable license select during online activation

Profile ID	First Name	Last Name	Email	Date	Host Id	Installation status	Activated products	Get key	Personal comment
No records.									
<b>Create New License Activation Record</b>									

If there is at least one license activated with the same Host ID (on the same machine), edit the license activation record instead.
