

Working with Actual Resource Taxonomy Matrix

The **Actual Resource Taxonomy Matrix** (Ar-Tx) describes the mapping between the actual responsible resources and the actual responsibilities.

The Rows of this matrix are Actual Responsible Resources (Actual Organization, Actual Person, Actual Post) and the Columns are Actual Responsibility.

To create an Actual Resource Taxonomy Matrix

1. Specify the **Rows Scope** (Actual Responsible Resources);
2. Specify the **Columns Scope** (Actual Responsibility);
3. Click .

Actual Responsible Resources map to Actual Responsibility through the Responsible For relationship.

To map the Actual Responsible Resource to Actual Responsibility

- Double-click the empty intersection between the desired elements.

To remove the relationship

- Double-click a full intersection between the desired elements.
