

Adding Actual Projects in Lr diagram

To add a new Project

1. On the Lr diagram toolbar, click **Add New > Actual Project**. An empty line for the newly created project appears on the diagram pane.
2. Specify a time frame for the Actual Project.

To add an existing Actual Project

1. On the Lr diagram toolbar, click **Add Existing**.
2. In the **Select Actual Project** dialog, select a Actual Project (or several Actual Projects) and click the + button.
3. Click **OK** when you are done.

To add a new Actual Sub Project

1. Select the Actual Project for which you want to create a Actual Sub Project.
2. Do one of the following:
 - On the Lr diagram toolbar, click **Add New > Actual Sub Project**.
 - From the shortcut menu of the selected Project, choose **Add new Actual Sub Project**.
3. An empty line for the newly created project appears on the diagram pane.
4. Specify a time frame for the Actual Sub Project.
