

Creating PV-1 matrix

It is recommended to create an [OV-4](#) before creating a PV-1.

The PV-1 is an editable matrix displaying the responsibility of actual organizational resources (Actual Organizations, Actual Persons, and Actual Posts) for Projects.

The rows in the PV-1 Responsibility Matrix represent actual organizational resources (Actual Organizations, Actual Persons, and Actual Posts) and the columns represent Actual Projects .

To create a PV-1 matrix

1. Specify the **Row Scope** (Actual Organizations, Actual Persons, and Actual Posts).
2. Specify the **Column Scope** (Actual Projects).
3. Click  .
