Creating CV-7 matrix

The Capability to Services Mapping (CV-7) depicts mapping between the Capabilities and the Services that these Capabilities enable directly or using the implied relations. The rows of this matrix are Services and the columns are Capabilities.

To create a CV-7 matrix

1. Specify **Row Scope** (Services).
2. Specify **Column Scope** (Capabilities).
3. Click .

Services exhibit Capabilities using the Exhibits relationship.

To map a Service to a Capability

1. Double-click an empty intersection.

To remove the relation

1. Double-click a full intersection between the desired elements.
