

Actual Milestone Kind

Description

Enumeration of the possible kinds of Actual Measurement. Its enumeration literals are:

- InService - Indicates that the Actual Project Milestone associated with the Actual Milestone Kind is when the configuration goes into service.
- Deployed - Indicates that the Actual Project Milestone associated with the Actual Milestone Kind is a configuration deployment milestone.
- NoLongerUsed - Indicates that the Actual Project Milestone associated with the Actual Milestone Kind is when the deployed configuration is no longer used.
- OutOfService - Indicates that the Actual Project Milestone associated with the Actual Milestone Kind is when the in service configuration goes out of service.
- Other - Indicates that the Actual Project Milestone associated with the Actual Milestone Kind is not one of the standard Actual Milestone Kinds.
