

Case 1. Coloring Ports by Type using Contains operation

To color ports by their type

1. Create a **Legend** and a **Legend Item**.
2. Right-click the **Legend Item** to open its **Specification window**.
3. Click three dots  next to the **Adornment** property to **specify it**. Click **OK**.
4. Click three dots  next to the **Elements by Condition** property to edit it. **Elements by Condition** dialog opens.
5. Click **Expert** at the bottom of the dialog. The dialog is switched to the Expert mode.
6. Select **Create operation > Metachain Navigation**.
7. Click **Insert**.
8. Under **Metaclass or Stereotype**, select **Port**, and under **Property**, select **Type**.

9. Select **Create operation > Operation from Model > Contains**.
10. Drag-and-drop **Metachain Navigation** onto **Input** parameter.

11. Select **Obj > Element** > select the port type to verify.

12. Click **OK**.

Sample model
