

# Table Criteria area

The **Criteria** area appears below the table toolbars. If it is not displayed, click  in the table toolbar to expand it.

 To select the specified value in the **Model Browser** or to open its **Specification** window, you can right-click on the value boxes in the **Criteria** area.

The following table describes the contents of the **Criteria** area according to different tables and provides references to procedures when trying to specify any box of this area.

Table name where the box can be found	Box Name	Description	How to...
Generic Table Glossary Table	Element Type	Click  to open the <b>Select Element Type</b> dialog and select one or more types of elements you need to display in the Generic table.	<ul style="list-style-type: none"><li>• <a href="#">Create a Generic Table without help of a wizard</a></li><li>• <a href="#">Add or remove element types</a></li></ul>
Metric Table	Metric Suite	Click  to open the <b>Select Metric Suite</b> dialog and select the metric suites you want to use for calculating the metrics of your model. <div> The Metric Table is created following the procedure described in <a href="#">Create a Metric table</a>, the Metric Suite box has one or more default values. Otherwise, you must specify the metric suite criteria to start working with the Metric Table.</div>	<ul style="list-style-type: none"><li>• <a href="#">Create a Metric Table</a></li></ul>
Instance Table	Classifier	Click  to open the <b>Select Classifier</b> dialog and select one or more classifiers whose instances you need to display in the Instance Table.	<ul style="list-style-type: none"><li>• <a href="#">Specify the classifier</a></li></ul>
All tables	Scope (optional)	Click  to select one or more packages, which contain the elements you need to display in the table.  Click  to open the <b>Query</b> dialog and specify the criteria that define your scope.	<ul style="list-style-type: none"><li>• <a href="#">Specify the scope for the table</a></li><li>• <a href="#">Specify the Scope Query</a></li></ul>
All tables	Filter	Type the phrase by which the element should be filtered.  To open the menu with more filter options, click  in the <b>Filter</b> box.  To reset filter options, click  in the <b>Filter</b> box.	<ul style="list-style-type: none"><li>• <a href="#">Filter table data</a></li><li>• <a href="#">Save the filter criteria</a></li></ul>
