

Extension diagrams

Our modeling tool supports these extensions of UML diagrams, as well as various other types of diagrams:

			
User Interface Modeling diagram	Content diagram	Free Form diagram	Networking diagram
			
CORBA IDL diagram	Time diagram		

Working with Diagrams

For general information about working with diagrams, read [Diagramming](#). If needed, you can either enable or disable a plugin that allows you to create the appropriate extension diagram in the **Plugins** options group of the [Environment Options](#) dialog.
