Importing an OWL ontology file

You can import an OWL ontology file (after setting the OWL import catalog, if necessary), and reuse or augment it in the Concept Modeler.

To import an OWL ontology into a concept model (after setting the XML catalog file if necessary)

1. On the main menu, click File > Import From. Select OWL Ontology File.

2. Browse for an ontology file.

🕌 Choose an Ont	tology File to Impo	ort			×
Look in:	L Corporations		- G	🗊 📂 🛄 🔻	
Recent Places Desktop Libraries Computer	Name A	rdf		▼ Date mod 3/4/2015	
Network	•				
	File name:	Corporations.rdf		•	Open
	Files of type:	All Files (*.*)		-	Cancel

3. Click **Open**. The ontology file will be imported into the MagicDraw project.

If the OWL import catalog is set using a path variable (as described in using a path variable to share OWL import catalog files), and this path variable is When an OWL file has been successfully imported, an Imported Ontologies package will appear in the Containment tree containing the imported OWL datast defined (as described in setting a path variable to share OWL import catalog files), the Concept Modeler will not be able to locate it. Consequently,
