

Importing an ontology that defines annotation properties

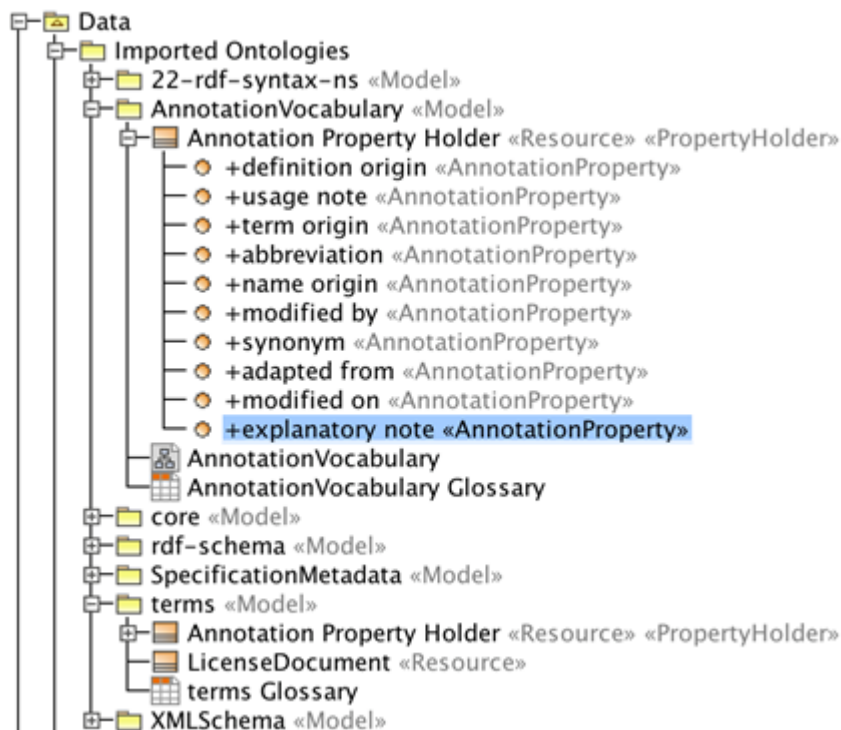

To import an ontology into an existing concept model

1. Select **File > Import From > OWL Ontology File**.

Importing an OWL ontology file to the Magic Concept Modeler.

2. Browse and select your OWL Ontology file.
3. Annotation properties imported from your OWL ontology will be displayed in the **Containment tree** under **Imported Ontologies** as shown in the following figure.

The imported Annotation Property is highlighted in the Containment tree.
