

# Creating SV-6 matrix

You can add new or existing Resource Exchanges, Commands, and Controls to fill in an SV-6 matrix.

To add new Resource Exchange type

---

1. In the SV-6 matrix toolbar, click the **Add New** button. The [Realized Resource Exchange wizard](#) opens.
2. Follow the steps of the wizard.
3. Click **Finish** when you are done.  
The rows with created Resource Exchanges type are added to the matrix.

To add an existing Resource Exchange type

---

1. In the SV-6 matrix toolbar, click the **Add Existing** button. The **Select Resource Exchange** dialog opens.
2. Click **+** button to select one of the following Resource Exchange types:
  - Resource Exchange
  - Command
  - Control
3. Click **OK** when you are done.  
The rows with selected Resource Exchange types are added to the matrix.

- Resource Exchange Identifier, Resource Exchanges Item Name, Producing and Consuming Functions, and wide range of measurement cells are allowed to edit in the matrix.
- Sending Resource, Receiving Resource, and Implements cells are read only.
- You may use an [SV-1](#) view to create or modify a Resource Exchange.
- You can use [Resource Exchange Manager dialog](#) that enables to analyze and manage the Resource Exchange data.
