

MODAF. AV-2 Integrated Dictionary

Description

An AV-2 presents all the Elements used in an architecture as a standalone structure. An AV-2 presents all the Elements as a specialization hierarchy, provides a text definition for each one and references the source of the element. An AV-2 shows elements from the Ontology that have been used in the architecture and new elements that have been introduced by the architecture. Architectures often introduce new terms – usually because the architecture is covering new technology or business processes. The purpose of the AV-2 is to provide a local extension of the Ontology to explain the terms and abbreviations used in building the architecture.

Implementation

AV-2 can be represented:

- Using a report, which is automatically generated from all data.
- An AV-2 table.

If you have AV-2 diagrams from previous versions, they will be migrated into the AV-1 diagram when loading the project with UPDM 17.0.2.

Sample

#	Name	Definition	UPDM Type	UML Metatype	Used in Diagrams	Belongs to a View
1	Fixed Wing Aircraft	The Nimrod can fly at high speed to a distance of approximately 800 nautical miles from base and then search for a period of 5 hours. Range can be extended at the expense of search time, or both may be extended by the use of in-flight refueling.	 ResourceArtifact	 Class	 TV-1	 SV-1
2	Helicopter	The RAF Sea King helicopters at Boulmer, Chivenor, Leconfield, Lossiemouth, Valley and Wattisham have a maximum endurance of 6 hours. This gives a radius of action of approximately 250 nautical miles from base. This can be extended by refuelling from forward bases, oil platforms or suitably equipped RN ships.	 ResourceArtifact	 Class	 SV-9  TV-1	 SV-1
3	MR Aircraft Instruction		 ResourcePort	 Port	 SV-8  SV-1  Maritime Rescue Unit	 SV-1
4	Rescueing		«»ResourceState	 State	 Aircraft Transition Description	 SV-1
5	Landed		«»ResourceState	 State	 Aircraft Transition Description	 SV-1
6	Recovering Victims		«»ResourceState	 State	 Aircraft Transition Description	 SV-1

AV-2 Integrated Dictionary

2. Integrated Dictionary (AV-2)

1. Actual Organization

- 1.1. Department Of Transport - actual organization.
- 1.2. RNLI - actual organization.
- 1.3. MRCC - actual organization.
- 1.4. MoD SAR Lead - actual organization.
- 1.5. Ambulance Service Association - actual organization.
- 1.6. Ministry Of Defence - actual organization.
- 1.7. Maritime and Caostguard Agency - actual organization.
- 1.8. DoT SAR Lead - actual organization.

2. Actual Organization Relationship

- 2.1. aliases with - actual organization relationship.
