Message

Information Source and Target of Operational Exchange should perform Operational Activities that are behaviors of Operational Activity Actions connected by Operational Activity Edge.

Description

Operational Activity Actions are connected by Operational Activity Edge that realizes the Operational Exchange. The Source and Target of the Operational Exchange do not perform Operational Activities that are behaviors of Operational Activity Actions. The inconsistency should be fixed.

Severity

Error

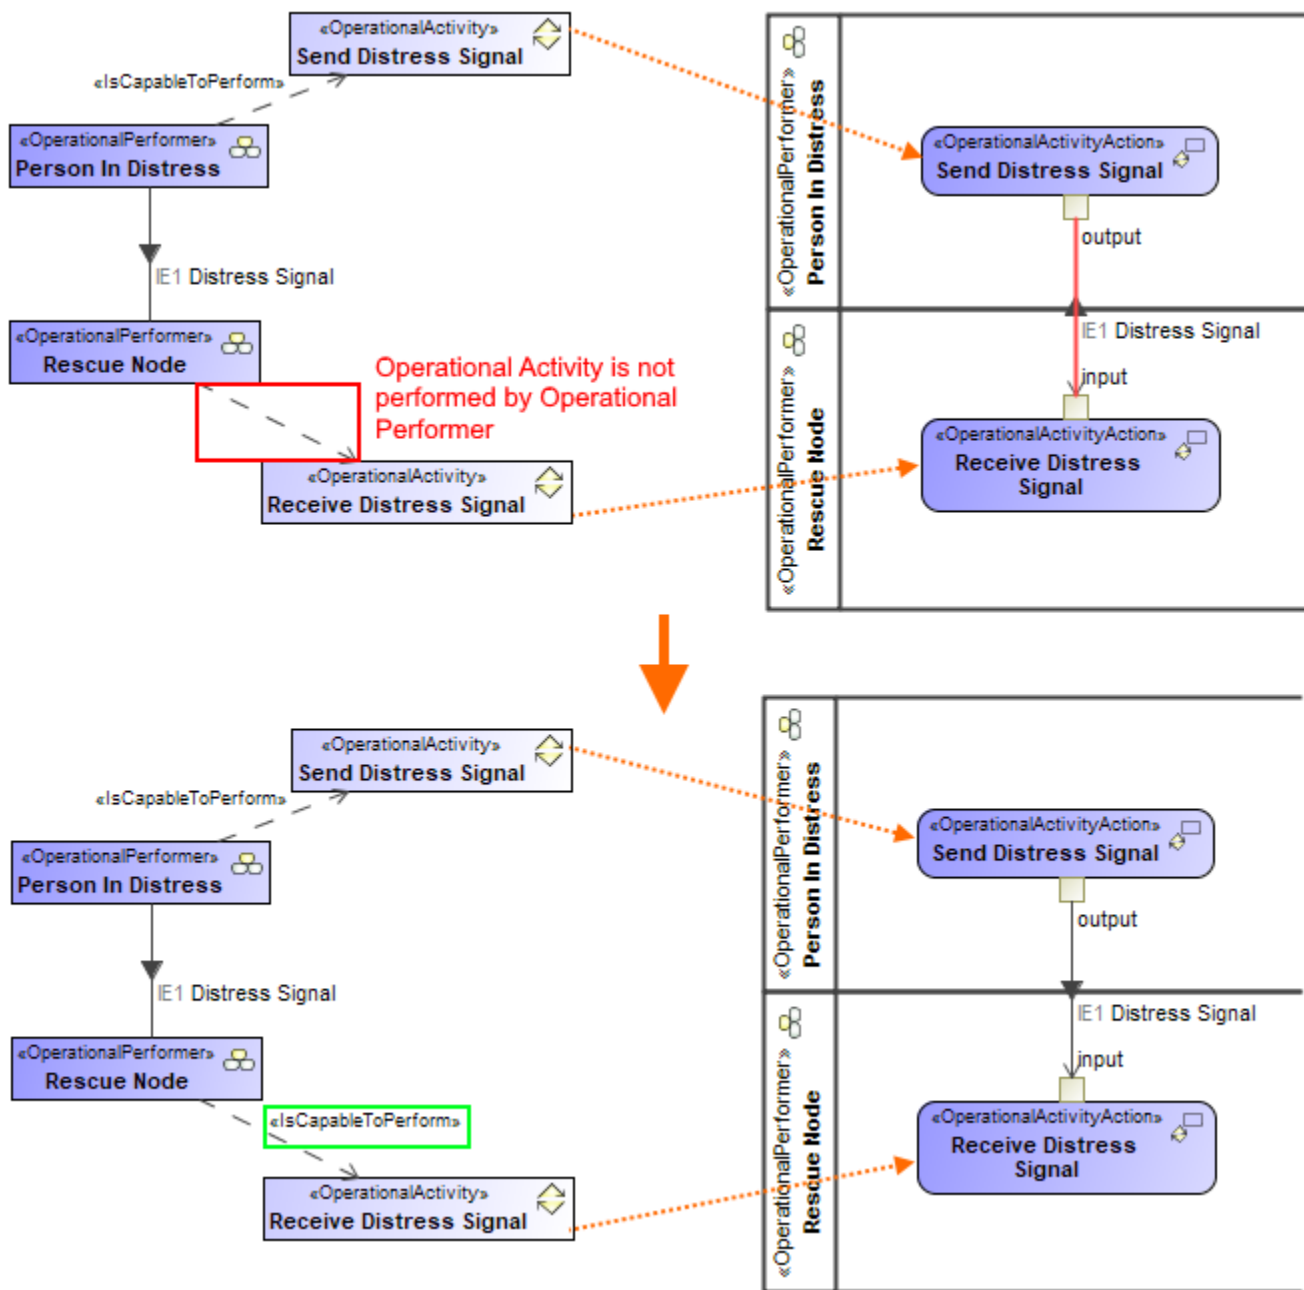

Context element

Activity Edge

Solvers

- **Correct Realization** - exchange realization by activity edge is corrected.
- **Remove Realization** - the realization is removed.

Example

Exchange realization is changed using Correct Realization solver
