

Changing the Teamwork Server license key

On this page

- [Changing the server license key from the dialog](#)
- [Changing the server license key from the command line](#)
 - [On Windows](#)
 - [On UNIX/Linux](#)

Changing the server license key from the dialog

1. Start Teamwork Server. The **Teamwork Server** dialog appears.
2. Click the **License Manager** button.
3. In the **Teamwork Server License Manager** dialog, click the **Select License Key Files** button.
4. In the **Select License Key Files** dialog, select the license key file and click **Open**.

Changing the server license key from the command line

On Windows

1. [Stop the Teamwork Server](#).
2. From the command line, run the following:

```
$teamwork_install_dir/bin/teamwork_server_nogui.exe -changeKey -key:<path to the key file location>
```

Example

```
$teamwork_install_dir/bin/teamwork_server_nogui.exe -changeKey -key:C:\MagicDraw_18_4_TeamworkServer_key.txt
```

3. Press **y** to apply the new license.

On UNIX/Linux

1. [Stop the Teamwork server](#)
2. From the command line, run the following:

```
$teamwork_install_dir/bin/teamwork_server_nogui -changeKey -key:<path to the key file location>
```

Example

```
$teamwork_install_dir/bin/teamwork_server_nogui -changeKey -key:/home/user/C/MD/KEYS/18.4  
/MagicDraw_18_4_TeamworkServer_Evaluation_key.txt
```
