

Move your server projects to the new location

Moving your server projects to the new location

1. [Stop Teamwork Server](#).
2. Copy the *projects* folder from:

Teamwork Server version	Location of the projects folder
17.0.3 or earlier	<Teamwork Server installation directory>\projects on all operating systems
17.0.4 and 17.0.5	<i>C:\ProgramData\magicdrawserver\<version number>\projectsem></i> on Windows 7/8/10 <i>C:\Documents and Settings\All Users\ApplicationData\magicdrawserver\<version number>\projects</i> on Windows 2000/XP <i>C:\WINNT\Profiles\All Users\ApplicationData\magicdrawserver\<version number>\projectsem></i> on Windows NT4 <install.root>\projects on other operating systems Note that the <i>projects</i> folder is created automatically after starting Teamwork Server for the first time.
18.0 or later	<i>C:\ProgramData\magicdrawserver\projects</i> on Windows 7/8/10 <i>C:\Documents and Settings\All Users\ApplicationData\magicdrawserver\projects</i> on Windows 2000/XP <i>C:\WINNT\Profiles\All Users\ApplicationData\magicdrawserver\projects</i> on Windows NT4 <install.root>\projects on other operating systems Note that the <i>projects</i> folder is created automatically after starting Teamwork Server for the first time.

3. Add the contents of the copied folder to the newly installed Teamwork Server *projects* folder.

Modifying the muserver.projects_directory property in muserver.properties file

1. [Stop Teamwork Server](#).
2. From the *.magicdrawserver\data* folder, open the *muserver.properties* file. The *data* folder is located in the same folder as the *projects* folder. For the *projects* folder location, refer the preceding table.
3. In the *muserver.projects_directory* line, specify the path to the *projects* folder. For example:

```
muserver.projects_directory=C:\\ProgramData\\.magicdrawserver\\17.0.5\\projects
```

Changing the repository location in Administrator's Console

By changing the repository location, you can indicate the projects folder that contains the project you want to import.

To change the repository location and import projects:

1. In the Teamwork Administrator's Console window, **Repository** tab, next to the **Location** box, click the "..." button.
2. In the **Open** dialog, select the projects folder and click **Open**.
3. When you receive the warning, informing that in order to apply changes, you need to run repository test, click **Run Test**.
4. In the **Repository Test Passed** dialog, click **OK**.
5. Restart the server.
